

Reason We Sell GORE®

- GORE® GR sheet gasketing is produced only by W.L. Gore & Associates.
- No toll manufacturers
- No house brands

- Unlike other ePTFE sheets, with Gore:
- You know what you are getting
- You can't get it anywhere else
- Your product is backed directly by the manufacturer
- You get support when others can't be found

Features & Benefits of GORE® EPTFE Gaskets

- **Chemically inert**
 - 100% expanded PTFE, no fillers
 - Almost all media (pH 0-14)
 - Not subject to ageing within the material's temperature range
- **Superior Technology**
 - Outstanding creep-resistance by using the unique expansion technique to create a strong network
 - High-temperature performance
 - Tight sealing, even at low loads
- **Conformable**
 - Seals rough & damaged surfaces
 - Engineered to accommodate the widest range of flange conditions
- **Durability**
 - Temperature & blowout resistance
 - Handles High Stress Flanges
- **Easy installation & handling**
 - Inventory reduction
 - Minimized gasket scrap
 - GORE® Series Tapes: Reduced installation time on large equipment
 - GORE® Universal Pipe Gasket (Style 800): Standardize across flanges
- **Improve Operational Results**
 - Reduced maintenance labor
 - Less downtime due to leakage
 - Recaptured emissions prevent loss of product
 - Greater operational consistency and performance
